Driver Profile

Steve Emerson

Age: 27

Occupation: Service Advisor at Tanner Honda

Background: Steve has a very storied past in racing. After getting started in snowmobile racing in 2002-2003 and running the MN north circuit. He took a break from snowmobile racing, only to land his big chance in 2006 with the resurgence of USCC racing, he promptly won the 440 class. The next season he got another break and rode a Yamaha Phazer and Nytro. Steve is a very talented cross country racer and you can expect big things from him in the years to come.

Racing Highlights: Season Points Champion 440 in 05-06 my rookie year. Finishing the I500 on the Yamaha Phazer. Winning the 07-08 Sport85 championship.

Mission Statement: There's a fine line between being consistent and being off the pace. You have to be both on the pace, winning a few rounds and also consistent. At the start of the season, you can't win the championship in the first round, but you can lose it. The goal is not to lose it.

2009 Season Goals

To represent my sponsors in a professional manor on and off the track
To bring a sport 85 championship to Yamaha along with a solid finish in the I500
